

SCIENTIFIC AGRICULTURE

LA REVUE AGRONOMIQUE CANADIENNE

VOLUME XVI

September 1935 - August 1936

EDITED BY THE
CANADIAN SOCIETY OF TECHNICAL AGRICULTURISTS AT
OTTAWA, CANADA

*Published monthly by the authority of the
Chairman of the National Committee on Agricultural Services*

SUBJECT INDEX TO VOLUME XVI

ENGLISH ARTICLES

	Page
Agriculture of the dry areas of the Prairie Provinces, The rôle of trees in modifying the.....	266
Agricultural outlook service.....	454
Agricultural price determinations, Cost of production records and their use in.....	212
Alberta, A study of 126 abandoned farms in the Lomond area of southern.....	558
Alberta, Experiments on the chemical control of snow-mould of turf in.....	615
Alberta, Fertilizers for the black and gray soils of central.....	238
Alberta, Irrigation in.....	270
Alberta peats, Composition and fertilization of.....	245
Alberta peats, Composition of some.....	499
Annual meeting of the Canadian Society of Animal Production (Eastern Section).....	66
Annual meeting of the Soils Group of the C.S.T.A.....	285
Annual meeting of the Western Canadian Society of Agronomy.....	168
Apples during the post-climateric in senescent decline, Preliminary study of the effect of a series of temperature changes upon the respiratory activity of.....	28
Apple production in Rouville County, Quebec, Economic aspects of.....	564, 676
Apple trees in Eastern Canada, Winter injury to.....	8
Apple, Tree injections with boron and other materials as a control for drought spot and corky core of.....	625
Apricot thinning investigations.....	644
Availability of nutrients in raspberry plots in relation to winter injury.....	1
Bacon hog, Some observations on carcass quality in the.....	169
Barley and livestock in Canada.....	339
Barley prices, Fifteen years of.....	450
Barley, The cleaning and handling of.....	289
Blight of celery, Control of late.....	358
Book reviews.....	286, 335, 503, 621, 622, 623
Boron and other materials as a control for drought spot and corky core of apple, Tree injections with.....	625
Botanical composition of permanent pastures, Succession and variation in the. Pasture Studies X.....	569
Breeding practices in pig production, A study of certain.....	322
British Columbia, Causes of raspberry failures in the coastal area of. Raspberry nutrition II.....	353
Butter in the Prairie Provinces, Cost of manufacturing.....	43
Canadian hard red spring wheat, Varietal composition of.....	409
Canadian Society of Animal Production (Eastern Section), Annual meeting of the.....	66
Cantaloupes, Irrigation of.....	634
Carcass quality in the bacon hog, Some observations on.....	169
Celery, Control of late blight of.....	358
Cereal crop improvement for dry farming conditions.....	113
Cereal crops in competition with weeds Relation between rate of seeding and yield of.....	165
Cereals for dry land farming on the Prairies, Suitable.....	135
Cereal grains and their use in poultry nutrition, The	
I. Hatchability studies.....	73
II. Influence of live weight gains and distribution of fat in fattening stock....	77

	Page
Cereal rust losses in Western Canada.....	608
Chemical examination of a degraded Glenmore clay, A.....	233
Chemical control of snow-mould of turf in Alberta, Experiments on the.....	615
Cleaning and handling of barley, The.....	289
Colorimetric determination of the pH of soils, Some factors involved in the.....	225
Comparison in farm efficiency, A.....	222
Composition and fertilization of Alberta peats.....	245
Composition of some Alberta peats.....	499
Contribution to the knowledge of sugar-beet insects in Ontario, A.....	180
Control of late blight of celery.....	358
Corky core of apple, Tree injections with boron and other materials as a control for drought spot and.....	625
Cost of manufacturing butter in the Prairie Provinces.....	43
Cost of production records and their use in agricultural price determinations.....	212
Cream, Methods of caring for farm separators and their influence upon the quality of	373
Cress, Creeping yellow.....	331
Crops in competition under dry farming, Root development of weeds and.....	151
Cultural and rational practices for dry land agriculture.....	121
Device for irrigation experiments, A measuring.....	619
Disease factor, The examination of wheat seed to determine the.....	175
Domestic fowl, The inheritance of egg production in the.....	591
Domestic fowl, The inheritance of skeletal dimensions in the.....	85
Drought situation in southwestern Manitoba, The recent.....	478
Drought spot and corky core of apple, Tree injections with boron and other materials as a control for.....	625
Drought, The efficient use of soil moisture as a factor in the control of.....	275
Dry areas of the Prairie Provinces, The rôle of trees in modifying the agriculture of.	266
Dry farming conditions, Cereal crop improvement for.....	113
Dry farming programme, Forage crop production in a.....	161
Dry farming, Root development of weeds and crops in competition under.....	151
Dry land agriculture, Cultural and rotational practices for.....	121
Dry land farming on the Prairies, Suitable cereals for.....	135
Economic aspects of apple production in Rouville County, Quebec.....	564, 676
Economic literature.....	55, 217, 223, 456
Economic research in progress.....	52
Economic situation, The.....	41, 209, 337, 441, 553, 665
Effect of vernalization on the incidence of loose smut in wheat.....	404
Effect of a spring frost on yields of spring sown grain, The.....	538
Efficient use of soil moisture as a factor in the control of drought, The.....	275
Egg production in the domestic fowl, The inheritance of. I. General considerations	591
Environment upon the germination of weed seeds, The influence of.....	141
Evaluation of vitamin-A supplements by spectrometric methods, The.....	398
Examination of wheat seed to determine the disease factor, The.....	175
Experiments on the chemical control of snow-mould of turf in Alberta.....	615
Farm efficiency, A comparison in.....	222
Farm grains in the hog ration, Rice meal as a partial substitute for.....	489
Farmers' business organizations in Canada.....	678
Farm labour in Carleton and Victoria Counties, New Brunswick.....	446
Farms in the Lomond area of southern Alberta, A study of 126 abandoned.....	558
Fate of phosphate in the soil, The.....	261
Fertilizers for the black and gray soils of Central Alberta.....	238

	Page
Fertilizers on the red raspberry, Results with.....	424
Fertilizing value of sulphate in natural "alkali" for gray wooded soils, The.....	241
Fifteen years of barley prices.....	450
Financial statements.....	50, 218
Forage crop production in a dry farming programme.....	161
Fowl mite and its control, The northern.....	79
Frost on yields of spring sown grain, The effect of a spring.....	538
Fruit tree stocks as influenced by a previous crop of peach trees, Growth of.....	16
Germination of weed seeds, The influence of environment upon the.....	141
Glenmore clay, A chemical examination of a degraded.....	233
Growth factor influencing the development of <i>Ophiobolus graminis</i> Sacc., A.....	365
Growth of fruit tree stocks as influenced by a previous crop of peach trees.....	16
Hatchability studies.....	73
Hays, Mineral content of Manitoba.....	521
Hog ration, Rice meal as a partial substitute for farm grains in the.....	489
Horticultural plants, Some fundamentals of nutrition of.....	21
Imperial Bureau of Plant Genetics, The.....	549
Influence of environment upon the germination of weed seeds, The.....	141
Influence of live weight gains and distribution of fat in fattening stock. The cereal grains and their use in poultry nutrition. II.....	77
Injections with boron and other materials as a control for drought spot and corky core of apple, Tree.....	625
Inheritance of egg production in the domestic fowl, The. I. General considerations.....	591
Inheritance of skeletal dimensions in the domestic fowl.....	85
Irrigation experiments, A measuring device for.....	619
Irrigation in Alberta.....	270
Irrigation of cantaloupes.....	634
Land utilization in Carleton and Victoria Counties, New Brunswick.....	347
Life insurance in south-western Saskatchewan, Some facts concerning.....	342
Livestock in Canada, Barley and.....	339
Manitoba hays, Mineral content of.....	521
Manitoba, The recent drought situation in southwestern.....	478
Markets, Terminal.....	350, 443
Measuring device for irrigation experiments, A.....	619
Methods of caring for farm separators and their influence upon the quality of cream.....	373
Milk consumption in Canada, Some facts concerning.....	555
Milk consumption in Canada, More facts concerning.....	672
Mineral content of Manitoba hays.....	521
More facts concerning milk consumption in Canada.....	672
National sheep policy, A.....	57
New Brunswick, Farm labour in Carleton and Victoria Counties.....	446
New Brunswick, Land utilization in Carleton and Victoria Counties.....	347
New recording rain-gauge, A.....	495
Notes on the survival of the eggs and free-living larvae of <i>Sclerostomes</i> on pasture.....	391
Nova Scotia, The United Fruit Companies of, Limited, and subsidiary companies..	47
Nutrition of horticultural plants, Some fundamentals of.....	21
Ontario, A contribution to the knowledge of sugar-beet insects in.....	180
Ontario, The physiography of south-central.....	457
<i>Ophiobolus graminis</i> Sacc., A growth factor influencing the development of.....	365
Pasture Studies X. Succession and variation in the botanical composition of permanent pastures.....	569
Peach trees, Growth of fruit tree stocks as influenced by a previous crop of.....	16

	Page
Peat bog profiles in the lower St. Lawrence River and Lake St. John regions in Quebec, Some.....	253
Peats, Composition and fertilization of Alberta.....	245
Peats, Composition of some Alberta.....	499
Phosphate in the soil, The fate of.....	261
Phosphorus in Alberta soils, Solubility and distribution of.....	652
Physiography of south-central Ontario, The.....	457
Pig production, A study of certain breeding practices in.....	322
Poultry nutrition, The cereal grains and their use in	
I. Hatchability studies.....	73
II. Influence of live weight gains and distribution of fat in fattening stock....	77
Poultry, The development of the wax-plucking method for.....	67
Prairie Provinces, Cost of manufacturing butter in.....	43
Prairie Provinces, The rôle of trees in modifying the agriculture of the dry areas of the.....	266
Prairie Provinces, The soil drifting problem in the.....	264
Prairies, Suitable cereals for dry land farming on the.....	135
Preliminary study of the effect of a series of temperature changes upon the respiratory activity of apples during the post-climateric in senescent decline.....	28
Quebec, Economic aspects of apple production in Rouville County.....	564
Quebec, Some peat bog profiles of the lower St. Lawrence River and Lake St. John regions in.....	253
Rain-gauge, A new recording.....	495
Raspberry nutrition. II. Causes of raspberry failures in the coastal area of British Columbia.....	353
Raspberry plots in relation to winter injury, Availability of nutrients in.....	1
Raspberry, Results with fertilizers on the red.....	424
Reaction of wheat varieties to different dates of sowing, The.....	127
Recent drought situation in southwestern Manitoba, The.....	478
Records and their use in agricultural price determinations, Cost of production....	212
Relation between rate of seeding and yield of cereal crops in competition with weeds	165
Results with fertilizers on the red raspberry.....	424
<i>Rhizoctonia Solani</i> Kühn in pure culture, On the production of sclerotia by.....	197
Rice meal as a partial substitute for farm grains in the hog ration.....	489
Rôle of trees in modifying the agriculture of the dry areas of the Prairie Provinces, The.....	266
Root development of weeds and crops in competition under dry farming.....	151
Rotational practices for dry land agriculture, Cultural and.....	121
Rust losses in western Canada, Cereal.....	608
Saskatchewan, Some facts concerning life insurance in south-western.....	342
Sclerostomes on pasture, Notes on the survival of the eggs and free-living larvae of	391
Separators and their influence upon the quality of cream, Methods of caring for farm	373
Sheep policy, A national.....	57
Skeletal dimensions in the domestic fowl, The inheritance of.....	85
Smut in wheat, Effect of vernalization on the incidence of loose.....	404
Soil-drifting areas, The use of tillage machinery in.....	281
Soil drifting problem in the Prairie Provinces, The.....	264
Soil moisture as a factor in the control of drought, The efficient use of.....	275
Soil, the fate of phosphate in the.....	261
Soils. A chemical examination of a degraded Glenmore clay.....	233
Soils. Composition and fertilization of Alberta peats.....	245
Soils. Composition of some Alberta peats.....	499

	Page
Soils Group of the C.S.T.A., Annual meeting of the.....	285
Soils of central Alberta, Fertilizers for the black and gray.....	238
Soils, Solubility and distribution of phosphorus in Alberta.....	652
Soils, Some factors involved in the colorimetric determination of the pH of.....	225
Soils. Some peat bog profiles of the Lower St. Lawrence River and Lake St. John regions in Quebec.....	253
Soils, The fertilizing value of sulphate in natural "alkali" for gray wooded.....	241
Soils. The physiography of south-central Ontario.....	457
Solubility and distribution of phosphorus in Alberta soils.....	652
Some factors involved in the colorimetric determination of the pH of soils.....	225
Some facts concerning life insurance in south-western Saskatchewan.....	342
Some facts concerning milk consumption in Canada.....	555
Some fundamentals of nutrition of horticultural plants.....	
Some peat bog profiles of the lower St. Lawrence River and Lake St. John regions in Quebec.....	21 253
Some problems in rural appraisal.....	669
Some observations on carcass quality in the bacon hog.....	169
Spectrometric methods, The evaluation of vitamin-A supplements by.....	398
Spring wheat, Varietal composition of Canadian hard red.....	409
Spring sown grain, The effects of a spring frost on.....	538
Study of certain breeding practices in pig production, A.....	322
Study of 126 abandoned farms in the Lomond area of southern Alberta, A.....	558
Sugar-beet insects in Ontario, A contribution to the knowledge of.....	180
Suitable cereals for dry land farming on the Prairies.....	135
Sulphate in natural "alkali" for gray wooded soils, The fertilizing value of.....	241
Temperature changes upon the respiratory activity of apples during the post-climateric in senescent decline. Preliminary study of the effect of a series of..	28
Terminal markets.....	350, 443
Tillage machinery in soil-drifting areas, The use of.....	281
Tree injections with boron and other materials as a control for drought spot and corky core of apple.....	625
Trees in modifying the agriculture of the dry areas of the Prairie Provinces, The rôle of.....	266
Turf in Alberta, Experiments on the chemical control of snow-mould of.....	615
United Fruit Companies of Nova Scotia, Limited, and subsidiary companies.....	47
Use of tillage machinery in soil-drifting areas, The.....	281
Varietal composition of Canadian hard red spring wheat.....	409
Vernalization on the influence of loose smut in wheat, Effect of.....	404
Vitamin-A supplements by spectrometric methods, The evaluation of.....	398
Wax plucking method for poultry, The development of the.....	67
Weed seeds, The influence of environment upon the germination of.....	141
Weeds and crops in competition under dry farming, Root development of.....	151
Weeds, Relation between rate of seeding and yield of cereal crops in competition with.....	165
Western Canada, Cereal rust losses in.....	608
Western Canadian Society of Agronomy, Annual meeting of the.....	168
Wheat, Effect of vernalization on the incidence of loose smut in.....	404
Wheat seed to determine the disease factor, The examination of.....	175
Wheat, Varietal composition of Canadian hard red spring.....	409
Wheat varieties to different dates of sowing, The reaction of.....	127
Winter injury, Availability of nutrients in raspberry plots in relation to.....	1
Winter injury to apple trees in Eastern Canada.....	8
